

# **Diploma in Information Communication Technology**

## **Objectives and Benefits**

The Computer Centre is intending to conduct a Diploma in ICT (Extension) course to enhance the opportunities for further ICT education for those who already possess basic qualifications and are in need of higher qualifications in ICT. This programme will be a 1 (one) year programme. After successful completion of the programme, participants should be able:

- a) To make available opportunities to those who aspire to further enhance their basic ICT knowledge.
- b) To help participants to improve their competence, self-confidence and skills in the application of ICT in various disciplines.
- c) To encourage participants to pursue ICT courses with international recognition such as ACS, BCS etc. by providing a strong theoretical and practical background.
- d) To provide an opportunity for the participants to obtain a Diploma Level University ICT qualification for their promotional prospects.
- e) To produce personnel sufficiently skilled to handle ICT requirements of small and medium scale enterprises effectively.
